## THE BOUNCED BOARD.

### No Meeting Held Today—Waiting for the Attorney General's Decision.

The Board of Public Works met this morning to transact business as usual, when Judge Oliver and Hon. Rufus King, who were present, gave it as their legal opinion that the Board could not transact any public business. Thereupon Mr. Caldwell asked that the opinion of the City Solicitor be obtained upon the subject, and forthwith sent him the following communication:  
 "To the City Solicitor:  
 'Yesterday you gave a verbal opinion that the members of the present Board of Public Works should continue to act until the parties to be appointed as City Commissioners should succeed them, but as it would be unwise to do business illegally, will you signify in writing your opinion as to the legality of our further proceeding, there yet being no successors appointed.'  
 "Yours,  
 JOHN D. CALDWELL."  
 To this the City Solicitor replied as follows:  
 "To the Honorable Board of Public Works:  
 "Gentlemen: In answer to the within communication, I would say:  
 "First, That Section 8, Division 4, Chapter 2, Page 205, Municipal Code, provides that 'All municipal officers, unless otherwise provided, shall continue in office until their successors are qualified.'  
 "Second, The new law provides that the City Commissioners shall be the successors of the Board of Public Works, and the Board can continue to transact business until the new Board has been appointed and qualified. Respectfully submitted,  
 "J. POWELL CROSLY,  
 "City Solicitor."  
 The members still being unsatisfied that they were yet a Board of Public Works, for the transaction of the city's business, took a recess until this afternoon at two o'clock.  
 In the meantime a telegram was sent to the Attorney General, asking him if they were justified in going on with their business until their successors were appointed and qualified. To this dispatch no answer has yet been received.

## COUNTY COMMISSIONERS.

### A County Morgue Asked For by the Coroner.

The County Commissioners held a regular meeting to-day, all of the members being present.  
 A transcript of the orders and proceedings had to incorporate Home City as a village was left with the Board for the purpose of being sent to the County Recorder for record.  
 Coroner Carrick appeared before the Board and asked that a morgue be erected in the jail-yard, on the north side, and that the undertaker of the jail be tapped to carry off offensive odors. The cost of the same would not be over \$2,000. No action was taken on the same.  
 A communication from the citizens of Symmes Township, asking for a bridge or street on the county road, was referred to the Engineer.  
 Messrs. Hoffman & Moersinger asked that the Board pay the amount of money expended by them for fills on the Carthage Pike. The communication was received and filed.  
**CRAB CIDER MOORE.**
